ABOUT THE ENCLOSED DISK

Many of the pages in this album were prepared using color photographs. However, the cost of printing the album in color was found to be prohibitive. Therefore, we have enclosed a DVD disk containing the entire album in full color. The album is stored on the DVD in Adobe Acrobat PDF format so that it may be displayed on either PC or MAC computers. Of course, you can print any or all of the pages using your printer. Many extra photographs are also included on the DVD. They are in the common JPEG (jpg) format for photographs and can be opened on any computer

If you have trouble opening the album on your computer you may have an outdated version of the Adobe Reader. You may download the free current version of the reader by logging on to www.adobe.com and choosing the version for your computer. Follow their directions for installation on your system.

Enjoy this innovation for NACA Reunion Albums!

Thanks To All Of You Who Helped Rekindle The Memories

NACA REUNION XII

Langley has agreed to host the next Reunion. A date had not been chosen at the time of this writing. All of you are on the mailing list to receive information at the appropriate time.
